WORK EXPERIENCE

FRONT END DEVELOPER   SERAPHIC
April, 2023 - present,

I started here as a front end developer
1. Developed and maintained responsive websites using HTML, CSS, and JavaScript.
2. Collaborated with design teams to implement UI/UX designs into functional websites.
3. Responsible for optimizing website performance and ensuring cross-browser compatibility.
4. Integrated third-party APIs and libraries to enhance website functionality.
5. Worked closely with back-end developers to integrate front-end code with server-side logic.
6. Conducted code reviews and contributed to code quality improvement initiatives.
7. Implemented responsive web design techniques to ensure optimal user experience across different devices.
8. Utilized version control systems (such as Git) for code management and collaboration.
9. Participated in agile development processes, including daily stand-ups, sprint planning, and retrospectives.
10. Actively stayed up-to-date with emerging front-end technologies and best practices.
